The YARD MASTER

The YARD MASTER features a powerful 2.5 ampere's of DC power for your locomotives. The YARD MASTER has a Green LED for POWER indication and a Red LED for OVERLOAD conditions. Overload conditions are handled electronically and automatically clear when the condition is corrected. The YARD MASTER is a direct response DC throttle with a center off reverse switch. The YARD MASTER is equipped with a 10 foot cord and requires remote AC input power of 12 to 24 volts (16vAC typical for 12 volt dc operators).

All units are priced at \$84.95* and are available from Qualified Dealers or Direct.

* all orders require PA State sales tax if applicable and a shipping / insurance charge (typically \$9.00). Call or e-mail for complete pricing.
