

## New Catalog #56

Catalog 56 features coverage of our latest new and existing products printed in full color! This includes sounds for Trains, including Traction items, and Model Boats. Available in high end and standard type sound systems with three model families to choose from. The first family of sound systems work with DC, DCC, Radio, Other Receivers, and Stationary Use, as well as the 1½" and other type operators. Our second sound family features sound systems with automated Horn/Whistle patterns for the "G" operator and others. The third family of sound systems were designed for the conventional AC operator.

We offer a wide assortment of other model railroad items from:

A 22 watt amplifier with true treble and bass controls.

Speakers in many different configurations and power ratings for use with many sound systems.

Lighting systems with variable output settings for any type of track power or stationary use.

Detection products that are compatible with most any system. Various types to offer many types of automation possibilities as well as a momentum control unit (for AC and DC operators only).

Grade Crossing items as well as lots of different connectors, and LED's, including the popular incandescent white LED's and tri-color LED's.

Catalog 56 consists of over 50 color filled pages and costs \$10.00 with orders, \$14.00 via U.S. mail delivery, or from our web site, free! For outside the U.S.A., please add appropriate additional postage. (U.S. funds only - no stamps!) or FREE via the Internet via U.S. mail

Ordering information is on our web site as well.
