LED Lighting, regulated Cool, low power, high Intensity, regulated LED lighting strips. Fit HO and larger. Adjustable length from 2" to 18", depending on unit selected, both only 1/2" wide! Variable regulated intensity. Your lights will remain constant with changes in track voltage above the minimum threshold. Illuminate your cars to the intensity and hue desired. Dim for sleepers, bright for coaches. Power consumption varies with intensity. Input ALL types of input power below 30 volts. Wide 120 degree viewing angle! LED's are rated for 100,000 hours of use! Typical light output for Warm and Cool units are a blinding 74 lumens per board! Amber is a bit less. Add super a cap, item 559, to the board to obtain up to 30 seconds of lighting after power is removed. Use to illuminate buildings, roundhouse, train stations, glass show cases, marquis, etc. Many applications!
