Item #1500

HiLine™ Steam Sounds - Full Featured

Featuring:

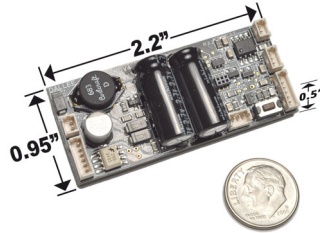

Exhaust chuff (synchronized or automatic), Whistle, Bell, Cylinder blow down, Blowers, random Air Pumps (select from single stage or compound), and Random Safety Valve. All sounds can be selected to play or not.

STEAM systems feature Whistles from:

B&O, NYC, N&W, PRR Banshee, PRR K-4, PRR T-1, Reading G-3, Reading I-10, and 3 bells to select from. All in one board!

HiLine™ 32 bit Polyphonic Sound Systems

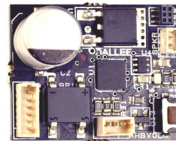

Compatible with All scales and gauges!

Features selectable sounds. Operates with conventional AC, DC, Radio receivers, DCC decoders, and Stationary as well as 1" & larger operators. Requires 8 ohm speaker. Same physical unit for all full featured sound types.

HiLine™ 32 bit STAMP Sound

Compatible with All scales and gauges!

0.95" w x 1.2" h
x 1/2" h

Selectable Horn/Whistle & Bell. Works with conventional AC, DC, Radio receivers, DCC decoders, and Stationary. Requires 8 ohm speaker.

YARD MASTER II

Item #2354

Item #2355
...same as #2354 but with remote on/off momentum speed control for automation use.

- Measures: 4.4" l x 2.4" w x 1.2" d
- Electronic overload protection
- DC throttle with momentum. • 2.5 amps
- Made in U.S.A. • requires AC input power

Simple Installation

Automatic Back-N-Forth

with timed stops at ends

Item#	Description
561	DC trains 1 amp, 1 track
562	" 1 amp, 2 track's
563	" 5 amp, 1 track
564	" 5 amp, 2 track's
609	unlimited length of track, also stops between ends if desired! 5 amp
610	item 609 with momentum start/stop
682	AC trains (req. 3 pos. E-Unit)

Automation

Item #	Description
691	Two trains/trolleys on one track
1691	item 691 with momentum start/stop
683	Timed Station Stops
686	item 683 with momentum start/stop
505	Timer-1, On/Off Timer
506	Timer-2, Dual On/Off Timer
507	Timer-3, Display Timer (PB operated)
508	Timer-4 / Back-N-Forth

Signaling & Automation Components

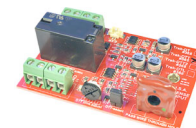

Detection that works with any track power, DC, DCC, AC, TMCC, and DCS, without interfering with the track power/signal! Sampling shown below:

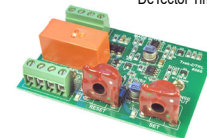

TRAK-DT #365
DeTector

12VPS #369
regulated power supply
for detectors!

TRAK-DTT#565
DeTector Timer

TRAK-DTRL #566
DeTector Resettable Latch! Remembers it's state w/o power.

MO-1 #567
Momentum control of starts / stops

Spike & Current Protection

Protects against transient high voltages that can damage your electronics and provides current overload protection.

HiLine™ Diesel Sounds - Full Featured

Item #1510

Featuring:

One sound unit contains 8 DIESEL prime movers with 8 notches, shown below, 10 HORNS, 3 BELLS, brake release & air release (spitters) to select from, a total of over 210 unique combinations. For all types of operators.

Prime movers:

ALCO Switcher,

Alco Road Engine,

Baldwin,

EMD,

Fairbanks Morse,

and two GE's

EP-5

HiLine™ Specialty Sound - Full Featured

Item #1530

Doodlebug

RDC

#1530 includes:
9 motor sounds
(includes 6 shown
and 3 more),
9 horns,
4 bells,
brake release on/off
For you to select
from in 1 unit!

Speeder

Trackmobile

Gallop Goose

Railbus

AC Sound Controller #1102

Three buttons: Direction, W/H, & Bell.
Operates most conventional AC sound
systems as well as all HiLine™ units
operating on AC power.

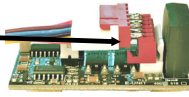

E-Unit's

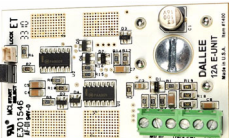

Item #400,
4 amp, for all motors.
0.95" w x 1.95" l x 1/2" h

Item #614, \$11⁹⁵
right angle adapter
for use on #400

Item #1400,
12 amp, for all motors.
2.5" w x 1.5" l x 0.9" h

Feature:

- Standard sequence - Forward/Neutral/Reverse/Neutral/Forward
- Instant response no Relays or Solenoids
- Positive Operation - ignores dirty track
- Quick reset to start position
- Selectable Startup
- Optional Lockout

Turntable Indexer Item #1700

HOSTLER 2100

THROTTLE TRACK OVERLOAD

30 40 50 60 70 85 100 SPEED

OFF W

DALLEE ELECTRONICS, INC.

- Six versions to choose from. Three for standard use and three for display operations. The display operation units have a remote input control to operate the momentum startup/stopping of a train or other item with the simple use of a timed switch or other device. The Whistle/Horn and Bell input's are also remoted to facilitate using remote push buttons for the display observers to use as well.
- SPEED, Direction, Whistle/Horn, and Bell controls for the conventional AC operator
- SPEED response contains a fixed momentum.
- Three current ranges: 3, 6, & 12 Amps of AC output power
- LED indicators for Power, Track, and Overload
- Electronic overload protection with auto-reset with a Red LED Overload indicator
- measures: 7.5"l x 4.5"h x 2"d for panel mounting with four #6 screws
- requires appropriate AC input power
- Made in U.S.A.

Crossbuck Flasher Item #367

Adjustable flash rate.
3 amps per lamp / led output!

LED Lighting, regulated Cool, low power, high intensity, regulated LED lighting strips. Fit HO and larger. Adjustable length from 2" to 18", depending on unit selected, only 1/2" wide! Variable intensity. Your lights will remain constant with changes in track voltage above the minimum threshold. Illuminate your cars to the intensity and hue desired. Dim for sleepers, bright for coaches. ALL types of input power below 30 volts AC, DC, DCC. Add super a cap, item 559, to the board to obtain up to 30 seconds of lighting after power is removed. Use to illuminate buildings, roundhouse, train stations, glass show cases, marquis, etc. Many applications!

Silhouettes available for "S" gauge cars.

entire series of 600's, 900's, and Pullman's available
