

New MP54 Sound

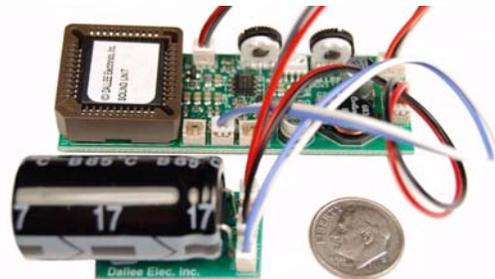

Our prototypically correct Dallee MP54 Sound is now available and ready to ship. The sounds featured in our system are: Horn, Bell, Air Compressor, and Wheel on Rail sounds. Each of these affects, except for the Air Compressor, can be individually selected for integration into your operation. If desired, the horn can be manually operated. When the MP54 pulls out from the station you will hear the wheels 'clicking' over the rail joints at a varying rate based on motor voltage or you can choose for it to be as though you are operating on welded rail. This system is available for all types of operators; as with our other sound systems, this includes AC, DC, DCC, Auto-Horn type "G", Radio Receivers, Stationary, and other applications.

Pricing for the different types of operation is: DC, DCC, Radio and Stationary Item #638 is \$119.95*. Auto Horn operated via reed switch and magnet commonly used by "G" operators, item #979 is \$119.95*. AC utilizing conventional Whistle/Bell activation item #1079 is \$129.95*. An 8 ohm speaker is also required for a complete installation. High efficiency speakers for all applications, as well as more details can be found in our latest catalog, #56, or on our web site.

All items:
Made in U.S.A.

Item 636, 637 and Item 986, 987 shown above.

Sound Card measures 2.7"l x 0.95"w x 0.75"h

Item 1086 & 1087, shown above, is for conventional AC track power users with standard Horn/Bell operation.
