

New EMD Class66 Sound System

Our EMD Class66 Sound System is available for all types of operators. As with our other sound systems, this includes the DC, DCC, Auto-Whistle type "G" operators, Radio, Stationary, and others. All contain variable volume control, notch adjustment with automatic notch settings, Horn control, and Automatic RPM adjustment. Pricing and other features for the different systems is as follows:

Item #639: for DC, DCC, Radio, and Stationary operators.

Features manual play of each horn "De" and "Dar", controllable engine startup / shutdown sounds, and force N8. Brake release and prime mover notches are automatic based upon motor voltage application.

Item #949: for Auto Horn "G" operators as well as DC, DCC, and Radio.

Features play of each horn pattern "De-Dar" and "De-Dar-De" via reed switch with magnetic trigger or other input via decoder or receiver. Also features brake release with automatic "De" horn upon pulling out. Upon powering the board, an automated startup sound sequence is initiated. Radio and other remote / DCC controls are able to control engine startup / shutdown sounds, as well as force N8. This unit also includes 2 reed switches.

either unit retail's for \$109.95*

An 8 ohm speaker is required. High efficiency speakers, as well as more details can be found in our catalog, web site, or order form. Ordering information is on our web site as well.
