

New Trolley Sound

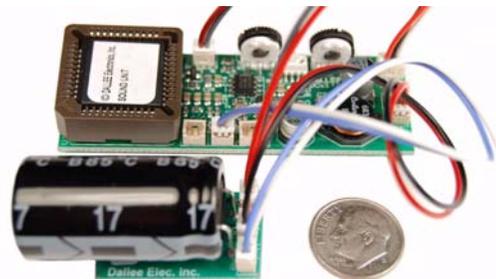

Our prototypically correct Dallee Trolley Sound is now available and ready to ship. The sounds featured in our system are: Bell, Horn, Door Operation sounds and Wheel on Rail sounds, each of these affects can be individually selected for integration into your operation. If desired, the horn can be manually operated. The bell will ring twice when the trolley begins to move as a warning for the passengers. With the door operation sounds integrated in your operation you will hear the doors close as the trolley pulls out from the station and then open shortly after making your next stop. You will hear the wheels 'clicking' over the rail joints at a varying rate based on track voltage or you can choose for it will be as though you are operating on welded rail. Our Trolley Sound System is available for all types of operators; as with our other sound systems, this includes DC, DCC, AC, Auto-Horn type "G", Radio, Stationary, and others.

Two versions exist, the first is for early type trollies w/o air pumps. The second is for later trollies with air pumps. Pricing for the different systems is as follows: DC, DCC, Radio, Stationary: Item #634, 635: \$119.95*. Auto Horn operated via reed switch and magnet commonly used with "G" operators: Item #984, 985: \$119.95*. AC utilizing conventional Whistle/Bell activation: Item #1084, 1085: \$129.95* An 8 ohm speaker is required. High efficiency speakers for all applications, as well as more details can be found in our upcoming new catalog or web site.

All items:
Made in U.S.A.

Item 634 and Item 984 shown above.

Sound Card measures 2.7"l x 0.95"w x 0.75"h

Item 1084, shown above, is for conventional AC track power users with standard Whistle/Bell operation.
